Programming	C# (advanced), C++, Java, JavaScript, HTML/CSS
Game systems	Gameplay, physics, multiplayer, backend integration, UI, performance optimization
Tools	Git/GitHub, Firebase
Platforms	Meta Quest, Android, iOS, Steam, Epic Games

PROFESSIONAL EXPERIENCE

XRev Studios — **Jun 2026 — Present**

Senior Unity Developer

- Working on *Baseball X* and *Cricket X*: new game modes, multiplayer and a live spectator view.
- Built *Cricket Reborn*, a cricket simulator used at a sports venue in Karachi, along with its staff tablet app and venue screen (started part-time in Jan 2026).
- Connected the venue's online booking system to the game, so booked sessions run on time.

Magami Studios — **Nov 2025 — Jun 2026**

Senior Unity Developer

- Improved the architecture of *Breath of Estova*, a 2D online RPG, for better performance and easier upkeep.
- Built gameplay features and long-term systems for the live game.

XRev Studios — **May 2024 — Oct 2025**

Unity Developer

- Lead developer of *Baseball X*, a VR baseball game: built the game's code end to end, including the bat–ball physics, game modes and player accounts.
- Built a companion app for setting up pitches and reviewing swings.
- Worked on fielding, physics and animation for *Cricket X*.

Game District — **Apr 2022 — Apr 2024**

Unity Developer

- Built and launched 4 mobile games for iOS and Android.
- Kept existing games running smoothly across a wide range of devices.
- Worked in a multi-developer team using Git.

PERSONAL PROJECTS — BUILT SOLO

- **Leaf Sweeper VR: Cozy Cleanup** — a relaxing garden-cleanup game. Out in Early Access on the Meta Horizon Store.
- **Echo Room VR: Escape the Dark** — a puzzle game where you find your way in the dark using sound. Out in Early Access on the Meta Horizon Store.
- **Supermarket Simulator VR** — run your own shop in VR. Coming to Early Access.
- **Skateboard** — a downhill skateboard racing game.

EDUCATION & TRAINING

Bachelor of Computer Science (BCS) — University of Agriculture, Peshawar — **2017 — 2021**

Junior Unity Game Development Program — GameTrain: 350+ hours; Unity Essentials and Junior Programmer pathways — **Dec 2021 — Mar 2022**
